

# Envisioning the future of work

Our Journey to Create Hiveapp

FutureWork Studio

All good stories  
start with 'once  
upon a time'

Let's paint  
tomorrow...

# We see exponential Connectivity

People of all  
ages are  
seeking more  
purpose

---

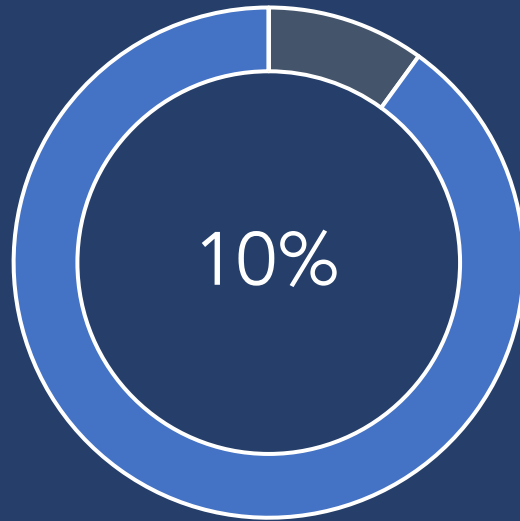

Climate Change  
is creating a  
volatile world

# Robots are coming for our tasks not our jobs

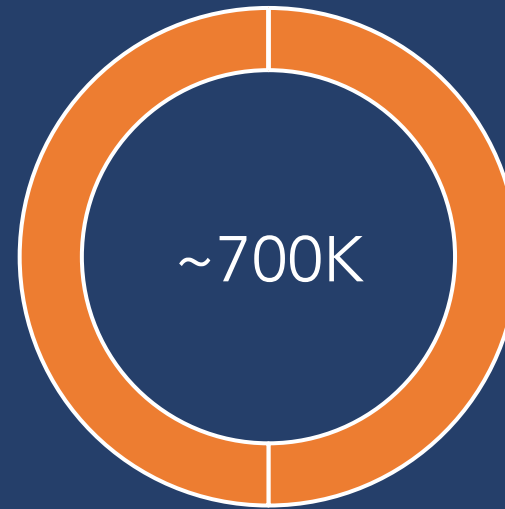

New Zealand

Work activities that can be automated

Less than 10% involves tasks that can be automated fully

Job loss

New jobs created

# So what does a future fit workplace look like?

# Our idea

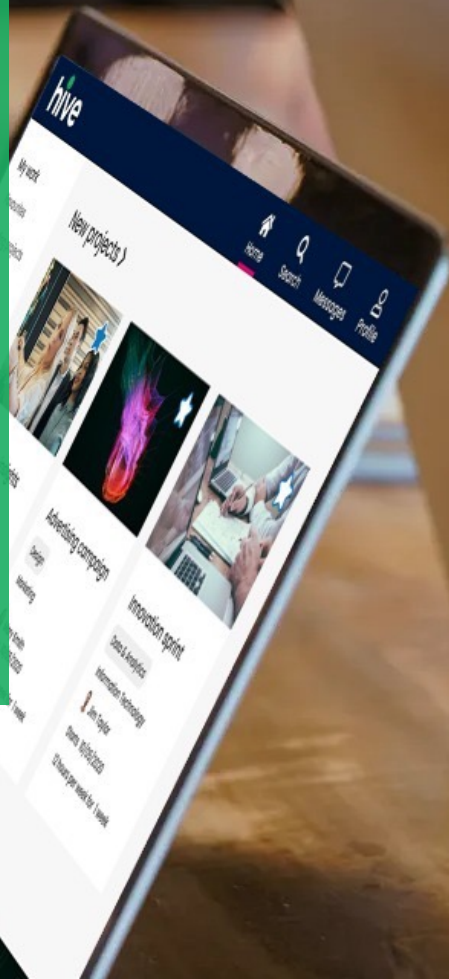

**hive**  
by FutureWork Studio

[www.hiveapp.ai](http://www.hiveapp.ai)

Hive is a peer-to-peer opportunity marketplace that unlocks **new ways** for people to **work and learn** together.

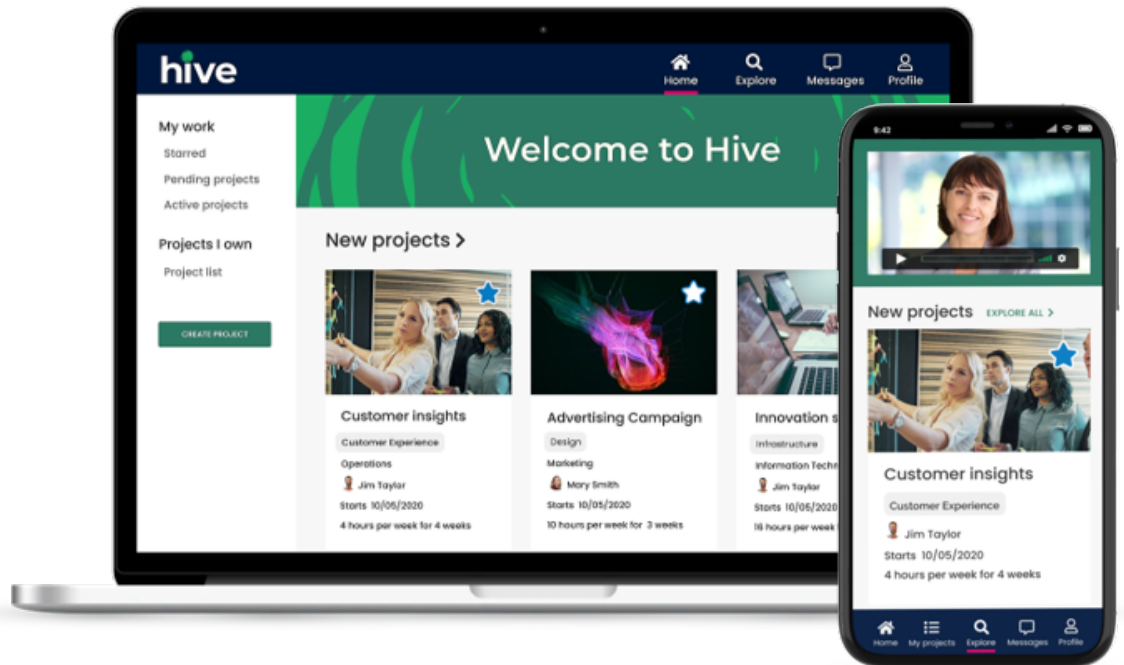

# Hive unlocks collaborative and agile ways of working

Hive is our SaaS opportunities marketplace that unleashes in-demand skills and extra capacity hidden in an organization's workforce, enabling key initiatives to be resourced faster with diverse and talented people already on the payroll.

Hive doesn't need to integrate with an organisation's systems and can be deployed with minimal change management.

Hive is hosted on AWS, is GDPR compliant and independently CAIQ audited.
